### Home Canning Sugar:

Sugar for home canning this year,  
while not as much as 1944, should  
still be enough for all legitimate  
needs, District Director W. E. Hol-  
comb announced this week.

The reason for tightening up the  
OPA official said is that our sugar  
stocks at this time of year are lower  
than in years while military needs  
are greater. Cuban production is  
down, and domestic production can-  
not be increased because of manpow-  
er shortages.

There will be no stamp in ration  
Book Four good for canning sugar  
this year, Major Holcomb pointed out,  
as experience proved the 1944 plan  
impractical. The canning sugar  
stamp was misused by millions.

Major Holcomb explained that ap-  
plications for canning would have to  
be made through local War Price and  
Rationing Boards, on forms provided  
by OPA for the purpose. Major  
Holcomb added, however, that no  
applications would be processed by  
local boards until after April 2.

Contrasted with last season's max-  
imum allowance of 25 pounds per  
person, with no family receiving  
more than 180 pounds, regardless of  
the number of members.

The applicant will be required to  
state the amount of home canning  
she did last year and the number  
of quarts she expects to can this  
season. The Board will then issue  
coupons for 1 and 5 pound purchases  
of canning sugar.

In making application, the house-  
wife will attach "Spare Stamp 13"  
from War Ration Book Four for each  
member of the family named in the  
application, as evidence that such  
persons are actual holders of Book  
Four.

**Rubber Soles and Heels**  
Brown synthetic rubber heels and  
soles, and black synthetic rubber  
soles, are back in shoe repair shops  
again, according to an announcement  
this week from OPA.

Production of these items was re-  
cently authorized by the WPB, and  
the OPA has already set dollar-and-  
cents ceiling prices for shoe repair-  
ers using them.

**Price Checks**  
During the month, every retail gro-  
cery outlet will be visited, principal-  
ly by volunteer price assistants  
working under supervision of local  
boards and checks will be made on  
actual prices charged for specified  
items, as well as on proper posting  
of ceiling price lists.

Results of this thorough survey,  
Major W. E. Holcomb said, will be  
compared with those of a similar  
check made in March of last year,  
and will show actual progress made  
during the year in securing compli-  
ance with OPA regulations.

This grocery check is one of our  
similar compliance surveys being  
made by OPA during March. Other  
businesses covered are drug stores,  
laundries and frozen food lockers.

**Shoe Stamp Holiday**  
The OPA Odd Lot Release of some  
four million pairs of men's and wo-  
men's shoes in the odd-lot and broken  
size groups have been extended  
another week. It was stated this week  
by W. E. Holcomb, District Director,  
that the shoe stamp holiday, which  
originally slated to be held by the  
nation's shoe dealers from February  
19 through March 5, the sale has been  
extended through March 10 because  
transportation delays slowed inter-  
dealer shipments prior to the open-  
ing date of the clearance.

Designed primarily to utilize all  
existing footwear and get these shoes  
on the feet of men and women, rather  
than keep them on the shelves of  
stores, the sale offers dealers the  
opportunity to clear out these speci-  
fied lines at reduced prices, without  
requiring ration stamps.

## FAMILY REUNION

PVT. ARCHIE SAUCIER

FRED SAUCIER, EM 2c

Mrs. Florence Saucier had a large  
family reunion at her home at Ne-  
caise recently—to say good bye to  
her son Archie and to welcome home  
her son Fred. It was the first time  
Archie and Fred had seen each  
other in two years.

The reunion was a real old fash-  
ioned one. The family had been pre-  
paring for it all week and the table  
was laden with food—turkey, chick-  
en, ham, pies and cakes of all de-  
scriptions. The kind of meal the  
boys dream about when they are  
away from home.

Among the guests were: Mrs. S.  
B. Howard and children Mr. and Mrs.  
Kenneth Neely, Mrs. Estus Ladner  
and daughter, Pvt. and Mrs. Archie  
Saucier and daughter, Mr. and Mrs.  
Luke V. Saucier and family. Guests  
from Picayune were: Mr. and Mrs.  
Loren Ladner, Mr. D. A. Ladner,  
Mr. and Mrs. Purvis Polk and chil-  
dren and Mrs. Leola Spiers.

Archie left Thursday for a port of  
embarkation for overseas duty.  
Fred is now stationed in New Or-  
leans after having served overseas on  
an LST for eighteen months. He  
participated in the invasions of Italy  
and France and saw action in Africa  
and Burma and India.

The only regret the family had was  
that Sunday was the birthday of an-  
other brother, Chief Petty Officer  
Ralph Saucier, U. S. C. G. R., and he  
was unable to be there as he has  
been in the South Pacific for the  
past nine months.

**Used Cars**  
OPA District Director W. E. Hol-  
comb reminded dealers and individ-  
ual sellers of used cars this week  
that the new, more stringent regula-  
tions going into effect on March first,  
giving buyers more protection from  
overcharge violations.

**Clothing**  
Good news for America's millions  
of families in the medium and low  
income groups was OPA's announce-  
ment this week of new ceiling prices  
on cotton clothing manufactured un-  
der WPB's textile-priority system.

Latest step in the joint OPA-WPB  
program to reduce the retail clothing  
costs five to seven percent, and at  
the same time restore lower-priced  
clothing to the shelves and counters  
of the nation's stores, the new regu-  
lations set prices back in the same  
brackets as each manufacturer fea-  
red from June, 1942, to June,  
1943. All cotton garments covered  
by the new regulations will be pre-  
dictated by the manufacturer with  
official OPA ceiling prices printed  
on the tickets.

There will still be varied price  
ranges, depending on the quality of  
material and workmanship, with re-  
tail prices also determined by wheth-  
er the retailer bought direct from  
the maker or through a wholesaler.

Under the new regulations, prices  
for girls' school dresses will range  
from \$1.65 to \$3.45; men's shirts,  
\$1.30 to \$3.70; women's house-dresses,  
regular sizes, \$1.95 to \$3.70; with  
extra sizes running to \$4.50; little  
boys' wash suits, \$1.30 to \$2.70; in-  
fants' rompers, \$1.05 to \$2.40, and  
so on through a long list of essential  
clothing needs for all the family.

OPA's District Director W. E. Hol-  
comb explained that this new mer-  
chandise in the low and medium  
price brackets should reach retail  
stores by early summer. He cau-  
tioned all buyers to look for the offi-  
cial OPA ceiling price tags and  
never pay more.

## RED CROSS DRIVE OPENED MONDAY WITH OPENING OF RED CROSS BOOTH

The Red Cross War Fund Drive  
fell in line on Monday with the  
opening of the Red Cross Booth  
Beach Boulevard and Main street and  
the workers have gone out to do bat-  
tle for the \$8,100 which is the quota  
for Hancock County. AND THESE  
WORKERS DO NOT KNOW THE  
MEANING OF THE WORD DE-  
FEAT! So it is just as well that  
they call on you for if you don't pay  
it first you will pay it later.

Casualties are increasing day by  
day in the War areas and the only  
thing we can do back home is to  
provide what is needed most for the  
comfort of the fighting service men  
and we are the only ones to do it.

Day after day we may if we will  
read testimonials from returning sol-  
diers and sailors of what the Red  
Cross has done. Nothing can be  
more convincing than the personal  
experiences of a person. Especially  
is the experience of a service man  
worth our attention for the service  
men tell just what happened and no

### TO SAVE NOW IS WISE

ROGER W. Babson points out that the people of this country are today spending seventy per cent more than they did in 1939, although the cost of essential living has gone up only twenty per cent.

The statistician says that since 1939, the increase in spending nearly corresponds with the increase of the average weekly earnings of our domestic population and questions whether this "reflects shrewd family planning."

It ought to be recognized by every American that we are living in abnormal years, with a super-abundance of money, due entirely to the wartime spending of the Government. If history repeats, there is ahead, inevitably and unavoidably, a period of recession, even if it is caused by nothing more than the cessation of unlimited Government spending.

Under such circumstances, it would be the part of wisdom for individuals, now enjoying incomes larger than usual, to make a desperate effort to save some of the easy money in order to be prepared for the tighter times that will arrive.

Not only will the individual be able to buy more with the money when the recession comes, but, by postponing expenditures, he will assist the Government in preventing inflation. There is a scarcity of certain goods and, despite price control, considerable commerce on the black market, which flourishes only because Americans are willing to pay extra-legal prices for immediate possession of what they want.

Mr. Babson suggests that the cost of essential wartime living has gone up only twenty per cent. This means that the buyer must pay today \$1.20 for what \$1.00 used to buy. If the expected recession arrives, and prices go down twenty per cent from what they were in normal years, the man who saves \$1.20 today will be able to buy goods to the normal value of \$1.50 in normal times.

Mathematical experts can figure this out. The increased buying power amounts to twenty-five per cent of the money saved. This is not a small gain for those who act wisely and patriotically today.

### HOW TO BEAT JAPAN

WE have read a number of articles purporting to describe a plan for the quick shift of troops from Europe to the Pacific, once Germany is defeated.

While the reporters tell us that the information comes from "high sources," there has been no official revelation of the plan of campaign to be adopted against Japan when the war in Europe ends.

Obviously, what the United States will have to do to complete the destruction of Japanese military power depends upon whether Russia comes into the war or not. Obviously, no announcement can be made as to this all-important factor.

There is, we believe, some difference of opinion as to the type of campaign that the United States should wage against Japan. Some high officers favor the shift of overwhelming manpower to the Pacific, the inauguration of an attack upon the home island of Japan and say that this form of warfare would, in the long run, be the cheapest in manpower and costs.

Others, it seems, lean to the theory that there is no urgent occasion for the use of immense numbers of American soldiers, that the Navy and Air Forces could institute a blockade and carry out bombing attacks that would, in time, completely devastate the home islands of the Japanese Empire. While this campaign might take longer, it would save many lives, in the opinion of its advocates.

The situation in China also engages the attention of the speculative strategists. Some suggest that the fleet should seize a port on the Southeastern coast of China, pour vast quantities of supplies into China for use by the Chinese soldiers and then leave it to the Chinese to oust the Japanese from the mainland.

This would save American manpower but, when the war against Japan ends, would leave several million Chinese soldiers, equipped and trained for warfare. What they might do causes some concern.

### OFFICERS FROM THE BATTLEMENT

THE Army has opened a school in Paris to turn out second lieutenants at the rate of 1,000 per month in a streamlined, twelve-weeks course, with the first class slated for graduation in May.

The young officers will be used as platoon leaders. Presumably, the school will offer opportunities to men who have seen combat and deserve the training that will enable them to wear bars.

Most Americans will applaud the decision of the Army to train capable soldiers rather than to depend on a system of training new recruits at home. Certainly, men who have faced the enemy under modern battle conditions deserve every recognition that the Army can give to them.

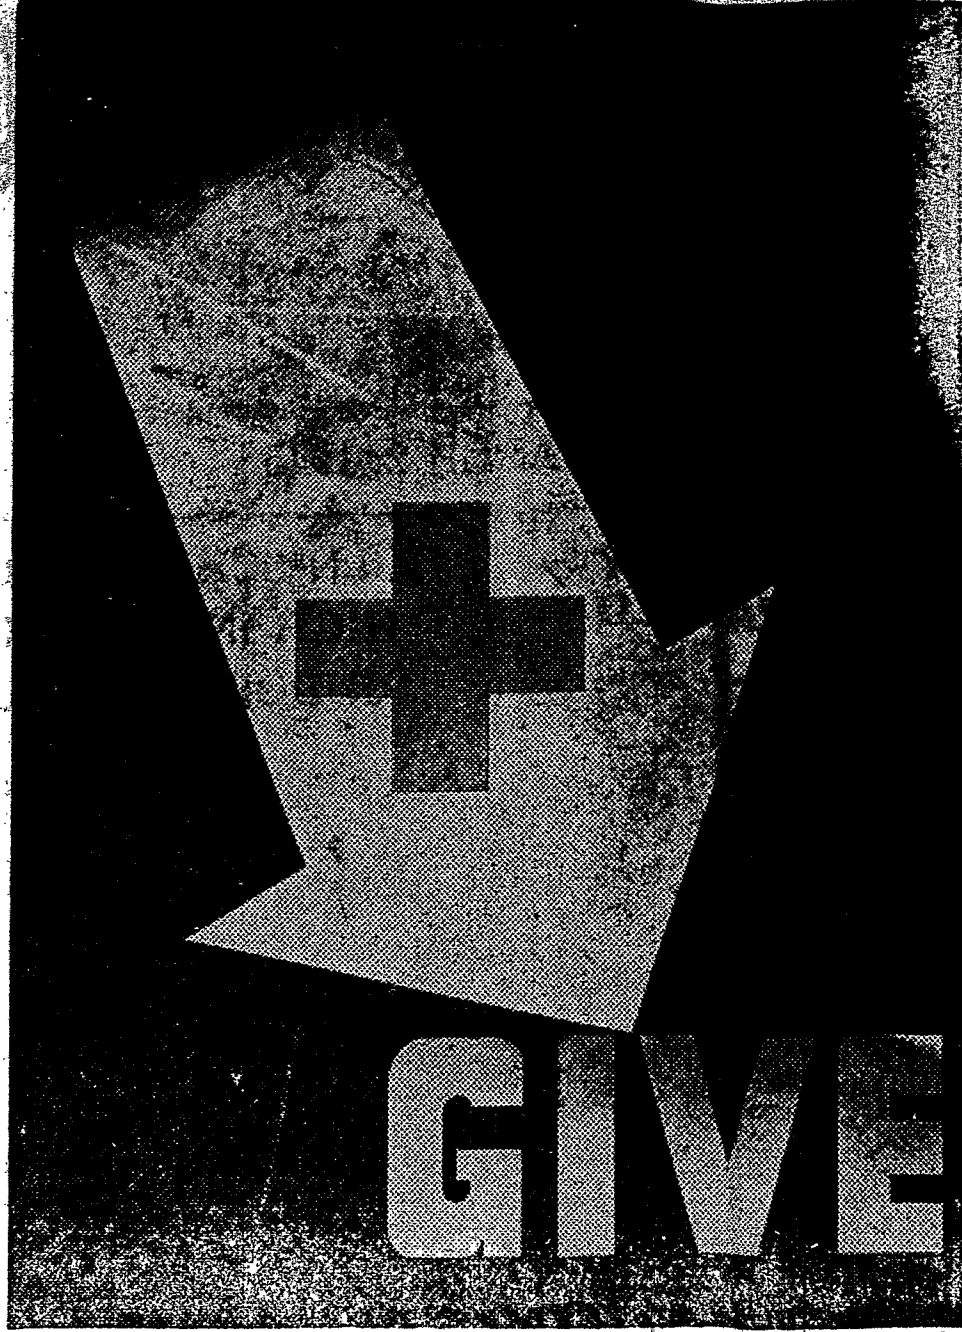

People who admit that they know nothing and are too lazy to learn anything are not as scarce as you might think.

If every man or woman was satisfied with getting only what he or she earned, the world would be filled with over-satisfied people.

One way to build up a town is to make it so attractive to young people that they will want to stay home and develop their own interests.

A newspaper would be really entertaining if the editor could print half the hearsay and rumor that is passed around by people who rarely know what they are talking about.

This is the time of the year for Bay St. Louis residents to get interested in natural beauty. Everybody ought to be willing to do something to help beautify Bay St. Louis.

### OIL DEVELOPMENT

According to the Oil and Gas Board in the Capitol, interest is running high in oil development in the state. A well producing a good gravity oil has been brought in near Columbia, and it is believed that a new field will be found there. One of the biggest deals made in the state has been in connection with land in the national forest reservations. Oil men have formed a pool, and leased large acreage reservations for which they are paying a bonus of more than \$300,000 in addition to the annual rent on an acreage basis. The bonus money, except 25 per cent going to the counties, will be paid to the federal government. The federal government now owns approximately a million acres in these reservations, which is about one acre out of every thirty in the state.

### NEW HOSPITAL

Contract has been let for the construction of the North Mississippi Hospital at Holly Springs, provided for at the last session of the legislature. The hospital will have a capacity of twenty-seven beds. In the construction a part of the buildings of the suspended Mississippi Synodical College will be used. The college buildings and grounds will be transferred to the state for this purpose. This will be the first charity hospital operated by the state north of Jackson.

### THE FARM

People seem to be realizing more and more the absolute necessity of relying on the farm. Every human being must eat and everything that is eaten comes from the farm. Governor Bailey is calling on the people

of Mississippi to provide no less than 450,000 Victory Gardens this year. These gardens will provide an abundance of food and will help materially to supply home demands and to feed the fighting men at the front where food is no less imperative than guns and ammunition. A survey of fighting men shows, according to published reports, that 800,000 soldiers have expressed a wish to locate on the farm when the war is over. Mississippi will be able to offer superior opportunities to returning soldiers who wish to engage in agricultural pursuits.

### GOVERNOR BAILEY ACTIVE

Governor Bailey has been a very active man since he became Chief Executive of the Magnolia State. When not busy at his desk he is out at some public meeting making a speech on some topic vitally affecting his people, or in a conference talking heart-to-heart to those who can help make a better situation in the state. He has taken an interest in schools and churches and has been active in the development of rural life problems. He is appealing to the people to begin now to make a better situation for the returning soldiers, and for victory gardens to aid in the production of food. All worthwhile movements and causes have had the enthusiastic support of Governor Bailey.

### FINANCIAL

On February 20 the amount collected in 1945 through the Tax Commission had reached \$4,296,066.83, which was slightly more than 750 thousand dollars in excess of the collections in the same period of 1944. Approximately 59% of the total came from sales tax. During the 51 days of 1945 the severance tax on crude oil reached a total of \$123,370.91. The

ORTTE THEATRE  
SUNDAY AND MONDAY  
PRESENTS "THE PRINCESS AND THE PIRATE"

Starring Bob Hope in Technicolor with Virginia Mayo and Walter Brennan

Laid in the colorful era of the Spanish Main, Samuel Goldwyn's Newest Technicolor picture, "The Princess and the Pirate" stars the irrepressible Bob Hope as a timid ham actor who becomes involved with a desperate buccaner band. It features the new find, lovely Vivian Mayo, as its heroine.

Traveling to Jamaica in the middle of the 18th Century on an English merchantman are Sylvester The Great, a boastful thespian, and a beautiful girl who calls herself Margaret Warbrook but who is really the Princess Margaret, fleeing the wrath of her royal parent. Sylvester boasts he would love to meet a pirate and beat the stuffing out of him, but when The Hook, a blood-thirsty buccaner attacks the vessel, Sylvester is scared silly and hastily assumes the disguise of an old woman to keep from having to walk the plank with the rest of the male prisoners.

One of The Hook's men, Featherhead, has stolen the map of a treasure cache from his chief and, hoping to get the loot for himself later, turns the map over to Sylvester and helps him and Margaret to escape to the French island of Casarogue. There the two fugitives become involved with the rascally Governor Laroche, and matters reach a hectic stage when The Hook, raging over the loss of his map, also appears, quarrels with his partner, the Governor, and is supposedly killed in the ensuing fight.

Featherhead rescues Sylvester and induces him to pose as The Hook and take over the latter's ship, not knowing that The Hook was only knocked out. When the pirate chief recovers and returns to his vessel there are plenty of complications which lead to the hilarious and exciting climax when Margaret's father shows up in a frigate to rescue his runaway daughter, and defeats the buccaner crew in a wild sea fight, with a clever surprise ending.

Hope has never had a funnier or more suitable role in his mirthful talents, and Miss Mayo is said to be a sensation as the Princess. Walter Slezak as the Governor, Walter Brennan as Featherhead and Victor McLaglen as the ferocious Hook head the picture's supporting cast, which also includes Hugo Haas and Marc Lawrence.

David Butler, who has handled most of Hope's previous vehicles, directed the gay offering from the screenplay by Don Hastman, Mel Shavelson and Everett Freeman, and the result is hailed as one of the year's most riotously entertaining films. It is released by RKO Radio.

general fund in the state treasury showed a balance of \$14,761,652.93 on February 20.

### ACCIDENTS

Deaths and injuries by accidents continues to be one of the big problems of this country. It seems to overshadow everything else. No way has been found to explain it or control it. Records show that in the year 1944 the United States had from all causes 94,000 accidental deaths. This was a reduction of 5% from the 1943 record of 99,038 deaths by accidents. Of the total in 1944 automobile wrecks accounted for 23,800 and accidents in the homes caused 36,500 deaths. In addition to the 94,000 deaths in 1944 there were 9,750,000 others injured many maimed and crippled for life. The money cost of these deaths is estimated at \$4,850,000. The nation's biggest and most difficult problem is the problem of accidents.

### OLD AGE PENSIONS

W. F. Bond, Public Welfare Commissioner, has announced that in 1944 Old Age Assistance was extended to 32,136 people and the amount paid out in that cause was \$3,897,402.

SATURDAY & SUNDAYGlittering Extravaganza—  
Pulses With Mirth-Making  
And Romance Up North

Two romances, a clever plan for a bit of larceny, a score replete with tuneful melodies, and a production filled with color, girls and laughs—these add up to International's "Belle of the Yukon," fast, funny and fabulous saga of the Yukon. Gypsy Rose Lee, Randolph Scott, Dinah Shore and Bob Burns star in this Technicolor musical extravaganza, while that luscious group of lovelies known as the Yukon Belles are prominently featured along with Charles Winninger in a gusty character role.

The action takes place in the little town of Malenute, where Honest John Calhoun (Randolph Scott) is not above a bit of thievery now and then. Miss Lee, as Belle DeValle, arrives with her troupe of entertainers, and instantly recognizes in Honest John the embers of a former flame. The last time he got away, but Belle determines that this time she'll hog tie him with a marriage license.

Miss Shore is the daughter of Charles Winninger, manager of the local groghouse, and Burns portrays a slick gambler. Heistic romance between Scott and Miss Lee, plus more conventional one between Miss Shore and William Marshall, alternate with Scott's involved schemes for defrauding the miners of their gold dust and provide the hilarious action. "Guinn 'Big Boy' Williams as a dim-witted officer, Robert Armstrong as a gambler, Florence Bates, Victor Killan and other noted players have important roles. Besides two old-time period tunes, new song hits by Johnny Burke and Jimmy Van Heusen feature the musical portion of the elaborate show which is replete with ensemble scenes.

Miss Shore's two new numbers are "Sleighride in July" and "Like Someone in Love" while Miss Lee explains "Evvy Girl is Different."

Produced and directed by William A. Seiter, "Belle of the Yukon" which is an RKO Radio release, was written for the screen by James Edward Grant from the story by Houston Branch.

A savings account is  
a liberal  
education

Not all children like mathematics—some of them find arithmetic very difficult. It's surprising how the attitude of many youngsters changes the day that they start their savings account which later grows into rugged backlogs. Each week they watch the sum grow. A savings account provides them with a daily lesson in thrift, economy. It's a liberal education. You can't start your youngsters too soon. It takes only a few minutes to open an account, so drop in tomorrow with your youngster and get him or her started on a regular program of savings.

##### St. Stanislaus Quintet Wins Over Slidell

Under superb leadership of captain Nieto, St. Stanislaus was able to trounce Slidell by a score of 41-21. The Louisiana boys were unable to cope with Nieto and company on offense or defense. The Goldust Twins—Wilson and Gulotta, were perfect in their team work and scoring.

Bobby Boh, Stanislaus, 93 lbs., a newcomer fighting his first, lost to Nelson.

Jim Smith of St. Stanislaus, 6 ft. 7 inches tall, has received offers from S. L. I. and Notre Dame to play basketball.

For real entertainment, the boxing teams of our two local schools can furnish it.

These boys receive nothing but a little applause once a week and lots of hard work six days a week.

Once you see these 60 to 130 pounders in action, you will give them a man's respect. Take the wife and kids to see them fight just for the love of fighting.

Marquar, of Bay High, is a real slugger and is developing into a classy boxer.

Daunis of St. Stanislaus, carries a knockout punch in either fist.

A boxing tournament is being talked of in Bay St. Louis. Such a scrap would bring together only the top notch-boys of competing schools and could furnish some high class sport. It is felt that gate receipts would take care of the finances if local people would support it. The bouts would be held in one of the local gymnasiums, both of which have excellent rings.

If you are interested, speak to one of the coaches or drop a note to this lad. Let's put one on and see some good fights.
